RENEWED REQUEST FOR CERTIFICATE OF CORRECTION

Dear Sir:

Patentees respectfully request the issuance of a Certificate of Correction for the above-referenced patent. For the benefit of the Office staff, the text of the requested corrections is being re-submitted on three pages of Form PTO/SB/44 attached hereto.

The Official communication of February 12, 2007 from the U.S. Patent and Trademark Office informed patentees that the earlier submission of Form PTO/SB/44 was not sufficiently legible to enable the printers to make a clean certificate. Patentees were invited to submit better copies. Consequently, this renewed request is being filed merely to provide the Office with legible copies that are in better form for printing and scanning purposes.

The text of the attached pages 1-3 of Form PTO/SB/44 does not add new matter to the application and provides the same text previously examined and approved in full by the SPE Response for Certificate of Correction (Form PTOL-306) in response to the Request for Correction of Errors in Patent filed September 23, 2005. The only difference with the earlier submission is that the substitute text of requested corrections provides larger fonts for each formula. It is hoped that this substitute text will suffice and the Certificate of Correction can now be issued. Any inconvenience caused by the previous submission to the Office staff is sincerely regretted.

Page 1 of 2

Thank you for your time and consideration of this request.

Respectfully submitted,

WYETH
